Peloton Row for commercial use

## *The rower that does it all*

### The equipment

#### Near-silent drive train

Magnetic resistance makes for a smooth and near-silent workout that minimizes noise in your facility.

#### Rotating screen

The 23.8" full HD touchscreen creates a fully immersive experience and swivels 45° in either direction so exercisers can transition from rowing to strength, yoga, and more.

#### Ergonomic design

Our sleek, ergonomic design includes a comfortable and supportive seat and easily adjustable velcro foot straps.

#### Stowability

If your fitness floor plan changes, Peloton Row has front wheels that make it easy to move, and it also includes an upright wall anchor for compact vertical storage.

#### Optimized for your commercial space

---

Commercial limited warranty

---

Dedicated commercial service and support

---

Row mat included

## The experience

### Studio classes

Instructor-led studio classes guarantee an unforgettable workout experience for all skill levels with thousands of classes across rowing, strength, yoga, stretching, and more.

### Scenic

Exercisers can row through immersive routes and beautiful scenery from San Diego to Alappuzha with classes filmed outdoors on the water.

### Music

Upbeat and inspirational playlists from the classics to new hits make it fun for exercisers to push themselves that extra step.

## Features

### Form Assist

Every exerciser gets real-time form feedback and a detailed breakdown of their rowing stroke after each workout to help them improve with every session.

### Pace Targets

With Personal Pace Targets, exercisers can customize each class to their ability and keep track of how hard they should be working based on their pace level.

### Metric tracking

Exercisers can track their progress over time with advanced real-time and post-workout metrics.

### Leaderboard

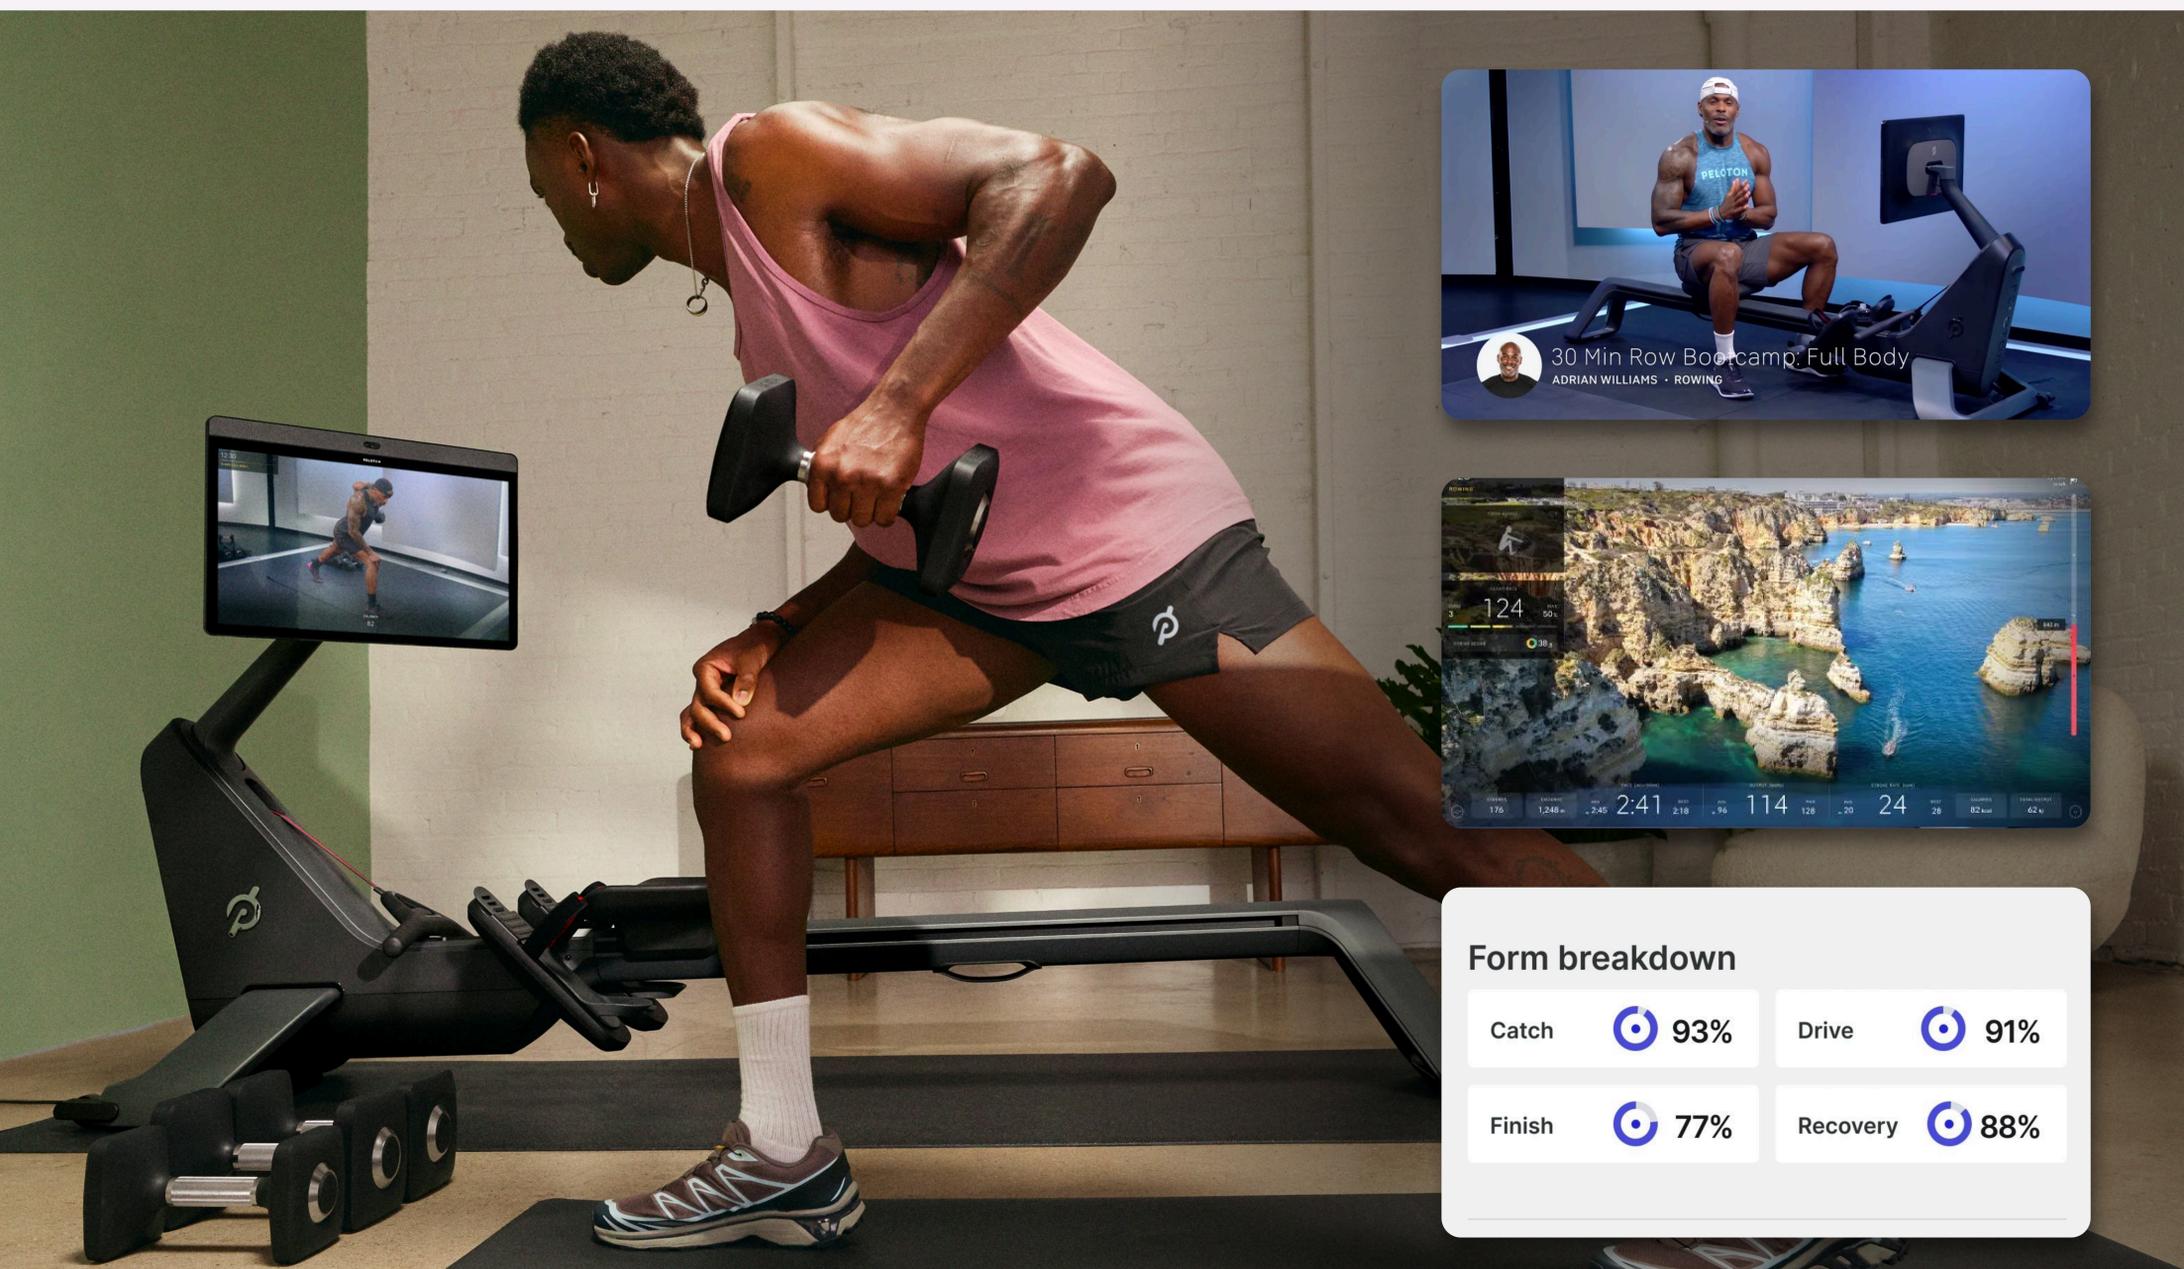

Exercisers can celebrate personal bests, streaks, and goals achieved, as well as see themselves climb up the Leaderboard.

## Commercial subscription

With one subscription fee paid by the facility, an unlimited number of exercisers can log in or create free accounts and work out as much as they want, at no charge to them

Enhanced security for your facility and exercisers, including timed auto-logout and PIN-protected device settings

Thousands of Peloton classes led by our roster of all-star instructors, featuring music specifically licensed for commercial use
